

## The all-in-one solution

for public transport companies

The portable solution for ticket sales and ticket inspection in public transport.

The kt 0128 all-in-one terminal is particularly suitable for the sale of paper tickets, EBE recording and ticket inspection. It is an all-in-one solution specially developed for the requirements of public transport companies - reliable, fast and intuitive to operate.

## Your advantages at a glance

- Long-lasting battery
- 6" large touchscreen
- Ergonomic user interface
- Powerful cameras
- Fast printer
- Control (RFID, QR codes) of Germany tickets, VDV-KA tickets, UIC barcodes and other e-tickets
